

How to plant Tantop[®] Royal

Planting period: October - May

The Expert for your roses.

- Tantop[®] Royal roses are already cut planting done and be planted with the wire.
- Dig a hole in a sunny place, wide and deep enough to accept the roots of the plant.
- The addit on of horn shavings or well-cured garden compost to the garden soil before planting will help ensure a strong growth. Alternatively, you may use special rose substrate.
- Remove the plastic pot.
- Put the rose into the hole in an upright posit on, refill with soil.
- The grafting point should be end up around 5 cm below soil level.
- Water well afterwards.
- Pile the soil up to at least 20 cm upon branches. This will be a protect on against frost and dehydrat on.
